Last week we asked where you were going to spend your Summer Vacation, and suggested various and sundry cool spots, warm spots, mountains, plains, volcanoes, jungles, lava flows, fern forests, holes in the ground, auto trips and railroad trips, and other choice things that might make the mouth of an ascetic water and the face of a pessimist smile.

"But what is it going to cost?" and "Where can we stay?" we are asked.

We answer these questions by this Ad., and say that we can and do recommend the following as being worthy of patronage:

The HILO RAILROAD COMPANY

Has Finished Its Extension from Hilo to Hamakua

The track runs along the top of the bluff for 34 miles; but it is no "bluff" when we claim that it presents some of the most spectacular scenery in Hawaii.

It crosses 207 gulches over fills up to 120 feet high—sixteen steel bridges over 400 and up to 1000 feet long and from 90 to 230 feet high—thru tunnels up to 2860 feet long—thru cuts up to 70 feet deep, and in one place

Runs for 4000 Feet Along the Face of a Precipice

descending sheer 200 feet into blue ocean. You never saw anything like it.

WE WANT YOU TO SEE ALL THIS FOR YOURSELF and have arranged with the HENRY WATERHOUSE TRUST CO. to tell you all about it and the summer cut-rate, round-trip ticket which we are issuing.

HILO RAILROAD COMPANY

COLUMBIA DRY BATTERIES

Many of the big departments at Washington, the Army, the Navy and Isthmian Canal Commission, use "COLUMBIA" No. 2.

Uncle Sam thinks so much of "Columbia" that it is used on all his battleships.

You, too, can enjoy its long life and dependability by saying "Columbia No. 2" to your dealer instead of merely "battery."

WILLETT & GRAY'S LATEST SUGAR REPORT

Willett & Gray's Sugar Journal for June 26 says:

Cuba.—The six principal ports: Receipts, 7,000 tons; exports, 30,000 tons; stock, 554,000 tons.

Centrals grinding 22, against 29 last week, 23 last year and 8 in 1911.

Receipts entire island 24,000 tons, against 34,000 tons last week, 18,000 tons last year and 10,000 tons in 1911.

Stocks in the United States and Cuba together of 1,024,571 tons, against 1,049,474 tons last week and 660,279 tons from last year.

Europe—Stock in Europe, 2,226,000 tons, against 1,576,000 tons last year.

Visible Supply.—Total stock of Europe and America, 3,250,571 tons, against 2,236,279 tons last year at the same uneven dates. The increase of stock is 1,014,292 tons against an increase of 957,607 tons last week. Total stocks of allots together show a visible supply of 3,411,571 tons against 2,386,279 tons last year, or an increase of 1,025,292 tons.

Raw.—The quotation for Cuba centrifugals, 96° test, advanced 3c per 100 lbs. to 2c c. & f., equal to 3.36c per lb. duty paid.

Moderate sales were made on this basis for prompt and early July shipments, and a 2 1/2c c. & f. (3.39c) for the second half July shipment.

The inspiration to pay this slight advance came from an improved demand for the refined product.

Now it would seem under all the evidence in sight that a further slow upward trend to the market can be expected for some months to come. The Cuba crop report brings the production to such high amount that we find it practicable to revise our crop estimate intelligently, which we do herewith, to 2,375,000 tons, against 1,895,984 tons last year, an increase of 479,016 tons.

Notwithstanding this large increase in the Cuban crop, we find it necessary to revise our previous expectation that no full duty sugar will be required to complete the consumption of the year.

From the table herewith it is shown that such full-duty sugar may amount to 45,000 tons, not a large quantity, and only required because of the large exports from the Cuba crop to Europe, Canada and Vancouver, made possible by reason of Cuban prices ruling enough below the world's price at Hamburg as to induce such importations.

The increase in the foreign demand for Cuba sugar this season is about 125,000 tons over that of last year, but if a good part of this quantity is diverted to the United States instead, or returned from Europe, we will not require any full-duty sugar this year.

European markets have a downward trend, declining 1 1/2d. for the week to 9s. 3d. for June beet, on favorable conditions as a whole, although somewhat dry in some sections, but 9s. 3d. for beet is equal to 63c. above our market for 96° test centrifugals.

We publish herewith our estimate of the United States domestic beet sowings for this season's crop, showing a total of 647,506 acres, an increase of 2.94 per cent. over those of last year, and indicating a possible yield of 640,000 tons of sugar, against last year's crop of 624,064 tons, the largest on record. The tariff agitation began too late to materially affect this year's sowings. The new crop sugar will begin to come on the market in July from California.

Atlantic Ports receipts for week are 77,010 tons, of which 11,126 tons Porto Rico and 7,152 tons Hawaii are free duty sugar. Meltings are unchanged and stock increases 19,010 tons.

At the close there are buyers for all offerings at current quotations, while sellers are inclined to ask 1-3/4c. advance.

Porto Rico Centrifugals were sold today at 3.36c for 96 deg. test, the full equivalent of Cuban sugar, because of the probable delay in making the new tariff effective.

The last sale to Europe was made this week at 133c. f. o. b. Cuba for balance cargo for July loading; the demand from Europe seems to be satisfied for the present, but there are still some 50,000 to 75,000 tons of previous purchases to be shipped.

The outpour of the Cuba crop continuing to prove beyond all expectation, we find it necessary to increase our estimate.

The visible production to date is 2,171,759 tons, and if we add the same quantity as was produced last year after this date, say 154,000 tons (there being about the same number of Centrals grinding) and allow for some 50,000 tons excess of stocks held on plantations, we may reasonably expect a total production this season of 2,375,000 tons, which is now our estimate, against last year's crop of 1,895,984 tons.

NO ARMY EXTENSION IN KOREA.

(Special Cable to Nippu Jiji.)

TOKIO, July 7.—The army extension plan which proposes to establish in Korea two additional Japanese army divisions will be omitted from the budget for next year. The decision was reached by the government after a lengthy discussion and study of the situation.

The plan was an actual motive of the political disturbances in the Japanese capital a few months ago when the Saionji and Katsura cabinets were forced out of office in rapid succession. Count Admiral Gombel Yamamoto's present administration now decides not to carry out the plan for the coming year.

MRS. MERSEBERG DEAD.

After an illness of more than a year, Mrs. Emma Merseberg, widow of the late Colonel Robert Hoapili Baker,

PRINCE TAKEHITO IS DEAD AFTER NUMBER OF YEARS OF SUFFERING

Prince Takehito Arisugawano-miya, who passed away Sunday night, according to cable dispatches received here last night.

(Special Cable to Nippu Jiji.)
TOKIO, July 7.—His Highness Prince Takehito Arisugawano-miya died at 9 o'clock Sunday night at the Maiko Beach villa near Kobe, where he has been ill for several years past. The end came to the prince after years of desperate struggle with an appalling disease. He was fifty-two years old.

When the information that the prince was about to die reached Tokyo, the emperor was stricken with sorrow. He soon ordered the appointment of Arisugawano-miya as field marshal, that being the last and highest earthly honor offered to the dying prince.

He died this morning at the residence of his son-in-law, James B. Nott, Berkeley avenue, at the age of 57 years. Deceased was born in Kohala, Hawaii, and leaves surviving her a son, Robert Hoapili Baker, assistant master of the city and county band of musicians, and two daughters, Mrs. James B. Nott of Honolulu and Mrs. Elizabeth K. Booth, now in California. Deceased is also survived by her mother, and two sisters, Mrs. John A. Cummins and Mrs. Ida Mett, both of Honolulu. The remains are now lying in state at the undertaking parlors of H. H. Williams. The funeral will be held tomorrow afternoon under the auspices of the Kaahumanu Society of which she was a member, and interment will

be in the family plot in Kawaiahao cemetery.

WM. L. MORRISON DEAD.

A cable was received this morning announcing the death in Eureka, California, of Wm. L. Morrison, father of Mrs. Wm. A. Wall and Miss F. K. Morrison.

DIED.

BRASH—At Leahi Home, July 7, 1913, Martha Kaonohi Brash, aged 29 years. Funeral at 4 o'clock this afternoon from Silva's undertaking parlors. Relatives and friends are respectively invited.

CASTORIA

for Infants and Children.

'The Effects of Opiates.'

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers, are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

The signature of *Chas. H. Fletcher* guarantees genuine Castoria.
Physicians Recommend Castoria.

"Your preparation known as Castoria I have used for years in children's complaints and I have found nothing better." *John J. Larba, M. D., Cleveland, Ohio.*

"For several years I recommended your 'Castoria' and shall always continue to do so, as it has invariably produced beneficial results." *Edwin F. Parker, M. D., New York City.*

"Your Castoria is a meritorious household remedy. It is purely vegetable and acts as a mild cathartic. Above all, it does no harm, which is more than can be said of the great majority of children's remedies." *Victor H. Coffman, M. D., Omaha, Neb.*

"I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild, laxative effect and freedom from harm." *Edward Parrish, M. D., Brooklyn, N. Y.*

"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact it is the universal household remedy for infantile ailments." *J. A. Parker, M. D., Kansas City, Mo.*
